Growing up on one of the most popular lakes in the country and now having the opportunity to show my clients not only how beautiful of a lake it is, but also what kind of Bass and Crappie fishing this lake can produce at any given time. Now having the opportunity to make my living guiding on the very lake that I grew up on is truly a blessing. With all of my years of experience, along with my tournament experience since 1969 and my guide service that I started in 2005 I'm able to help the beginning anglers of all ages that just want to enjoy the lake, to experienced tournament anglers for their upcoming tournaments. The knowledge that I acquired from tournament fishing all over the south has also helped in guiding on other local lakes as well. Lake Guntersville is and always will be my home lake, but there's nothing like sharing that knowledge and experience on these other lakes also. Now I've expanded my guide service to offering weekly, monthly, and yearly subscriptions to video fishing reports. These video reports will include lake conditions during that time, productive patterns with lures to use to help with these patterns, and maps with locations and a description of these areas. I look forward to many more years of showing my clients a great time on the water. Let's get out and have some fun!!! USCG Captain Mike Carter Winner of over 10 local "Angler of the Year" awards.
